### **Non-GAAP Financial Measures**

In evaluating the business, the Company considers and uses two non-GAAP financial measures, fees billed and EBITDA, as supplemental measures to review and assess operating performance. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The non-GAAP financial measures have limitations as analytical tools. Other companies, including peer companies in the industry, may calculate these non-GAAP measures differently, which may reduce their usefulness as a comparative measure. The Company compensates for these limitations by reconciling the non-GAAP financial measures to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating our performance. See "Operating Highlights and Reconciliation of GAAP to Non-GAAP measures" at the end of this press release.

**Currency Conversion**

Monetary assets and liabilities denominated in Renminbi are translated into U.S. dollars at the rates of exchange as of the balance sheet date, equity accounts are translated at historical exchange rates, and revenues, expenses, gains and losses are translated using the average rate for the period. With respect to amounts not recorded in the Company's consolidated financial statements elsewhere in this press release, all translations from Renminbi to U.S. dollars were made at RMB6.4778 to US\$1.00, the noon buying rate set forth in the H.10 statistical release of the Federal Reserve Board on December 31, 2015.
