“With the pandemic still not far behind us and the changing market environment in the second quarter, we are making comprehensive progresses towards our business transition in our credit-tech business and have achieved meaningful scale in our wealth management business growth.” said Mr. Ning Tang, Chairman and Chief Executive Officer of Yiren Digital.

“For our credit-tech business, our new online product initiatives are tracking very well. Our new revolving loan product, Yi Xiang Hua, accounted for 13% of our total loan volume this quarter, growing over 500% quarter over quarter. Meanwhile, by leveraging our vast offline service network coverage, we are ramping up auto loans nicely, achieving a 51% growth from last quarter. Moreover, we have made great strides in repositioning our credit business by moving from a P2P funding model to a loan facilitation model. In the second quarter, 63% of loans facilitated were funded by institutional intuitional partners and we expect this proportion to reach close to 100% by the end of this year with a diversified partner base.”

“On wealth management business, we are seeing very strong growth momentum particularly for our fund products. As of June 30, 2020, the number of current non-P2P investors increased 20% from last quarter to 31,530, and total AUA for non-P2P products increased by 48% quarterly to RMB 2.5 billion. Moreover, , average AUA per investor for non-P2P products also sees steady growth, with average AUA per investor for bank’s fixed-income products exceeding RMB 100,000 and for funds over RMB 50,000, which is well above industry average”

“We are delighted to see a notable acceleration in loan originations from prior quarter to RMB 2.4 billion, thanks to our strategic initiatives this year in diversification of our loan products,” said Mr. Zhong Bi, Chief Financial Officer of Yiren Digital. “To provide relief to our borrowers who were significantly affected by the pandemic as well as medical workers who fought on the frontlines, we proactively granted a concession totaling RMB 245 million for over 50,000 borrowers in principal, interest and late fees, this represents a one-time hit to our revenue. On the balance sheet side, our cash position remains strong with approximately RMB 3.4 billion of cash and short-term investments as of June 30, 2020. “

“Thanks to our continued efforts in risk management, the delinquency rates have shown a progressive improving trend. 15-90 days delinquency has decreased to 5.5% as of June 30, 2020 from 8.9% as of March 31, 2020. 15-90 days delinquency further decreased to 5.2% as of July 31, 2020 as a result of our strengthened efforts in tightening controls and improving borrower’s credit quality.” said Mr. Michael Ji, Chief Risk Officer of Yiren Digital. “To mitigate the risk caused by covid-19 and help customers went through the financial hardship, we have launched 7 relating special collection projects in the second quarter, including continued ‘pandemic customer care program’, which offered payment relief for the customers who were hit by covid-19 and healthcare givers who were fighting the disease. These special collection projects helped us achieve a decline in NCL by over 10% as compared with projection at the beginning of the year, even facing the economic headwind. We will continue to strengthen our risk management and expect delinquency rates to further improve in the second half of the year.

## **Recent Development**

### **Management Change**

Mr. Zhong Bi has resigned from his position as the Company's Chief Financial Officer ("CFO") to pursue other opportunities, effective on September 10, 2020. The board of directors of the Company has appointed Ms. Na Mei as the Company's new CFO, effective on September 10, 2020. Over the past two months, Ms. Mei has been working with Mr. Bi on daily CFO duties to ensure a smooth transition.

Ms. Mei joined CreditEase Consumer Credit Division, now part of Yiren Digital, in 2015. She has served as the financial controller for this business unit and the head of business finance department. Prior to joining CreditEase, Ms. Mei had worked 12 years at PricewaterhouseCoopers. She brought in seasoned experience in finance management, taxation, internal control and consulting, along with years of first-hand exposure dealing with publicly listed companies in China and abroad. Ms. Mei obtained her bachelor's degree from Capital Economic University and is a certified public accountant.

## 2020 Share Incentive Plan

Yiren Digital adopted a 2020 share incentive plan (the “2020 Plan”) in the second quarter of 2020. The 2020 Plan has a ten-year term, and has a maximum number of 18,560,000 ordinary shares available for issuance pursuant to all awards under the 2020 Plan. Yiren Digital may grant restricted share units and other form of awards pursuant to the 2020 Plan. In connection with the adoption of the 2020 Plan and to prevent dilution to existing shareholders, CreditEase Holdings (Cayman) Limited, the parent company of Yiren Digital, will surrender for cancellation and for nil consideration 18,560,000 ordinary shares of US\$0.0001 par value each standing in its name in the register of members of Yiren Digital.

## Non-GAAP Financial Measures

In evaluating the business, the Company considers and uses several non-GAAP financial measures, such as adjusted EBITDA and adjusted EBITDA margin as supplemental measures to review and assess operating performance. We believe these non-GAAP measures provide useful information about our core operating results, enhance the overall understanding of our past performance and prospects and allow for greater visibility with respect to key metrics used by our management in our financial and operational decision-making. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The non-GAAP financial measures have limitations as analytical tools. Other companies, including peer companies in the industry, may calculate these non-GAAP measures differently, which may reduce their usefulness as a comparative measure. The Company compensates for these limitations by reconciling the non-GAAP financial measures to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating our performance. See “Operating Highlights and Reconciliation of GAAP to Non-GAAP measures” at the end of this press release.
