### **Non-GAAP Financial Measures**

In evaluating the business, the Company considers and uses several non-GAAP financial measures, such as adjusted EBITDA and adjusted EBITDA margin as supplemental measures to review and assess operating performance. We believe these non-GAAP measures provide useful information about our core operating results, enhance the overall understanding of our past performance and prospects and allow for greater visibility with respect to key metrics used by our management in our financial and operational decision-making. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The non-GAAP financial measures have limitations as analytical tools. Other companies, including peer companies in the industry, may calculate these non-GAAP measures differently, which may reduce their usefulness as a comparative measure. The Company compensates for these limitations by reconciling the non-GAAP financial measures to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating our performance. See "Operating Highlights and Reconciliation of GAAP to Non-GAAP measures" at the end of this press release.

[1] Active investors refer to those who have made at least one investment through our wealth management platform or have had client assets with us above zero in the past twelve months.

[2] Client assets refer to the outstanding balance of client assets generated through our platforms, where an asset is counted towards the outstanding balance for so long as it continues to be held by the investor who acquired it through our platform.

[3] "Adjusted EBITDA" is a non-GAAP financial measure. For more information on this non-GAAP financial measure, please see the section of "Operating Highlights and Reconciliations of GAAP to Non-GAAP Measures" and the table captioned "Reconciliations of Adjusted EBITDA" set forth at the end of this press release.
